

SAP consultancy itelligence at the CeBIT 2006 from March 9 - 15, 2006

CeBIT: itelligence presents digital signatures in the SAP environment and a new solution for car dealerships and service companies

Bielefeld, Germany, March 6, 2006: itelligence, the IT full-service provider in the SAP environment, will present a broad array of innovative solutions for the classic and upper midsize market at the CeBIT 2006 in Hanover, in Hall 4, Stand D38, from March 9 to 15.

As a 'first' to be presented at the trade fair, itelligence will be showing a practical example of a digital signature in the SAP environment – the recently qualified electronic signature of generated invoices now allows a completely electronic generation of invoices in conformance with Article 14 of the UStG (German Revenue Tax Law) as well as the forgoing of their distribution in paper form – and also its new it.automotive Car Dealers & Services solution for car dealerships and service companies (CD & S). With the new it.automotive CD & S solution itelligence provides auto dealerships and service companies with a comprehensive solution based on SAP DBM (SAP® Dealer Business Management), the SAP industry solution for automobile dealers and automobile service companies.

itelligence will also be presenting its successful it.compact portfolio – now in its third release already – at this year's CeBIT. The expanded line, now with 120 solutions packages, has a defined price/performance ratio and also comprises, for instance, solutions for SAP portals, cost analysis for basic SAP operation and a package for the it.x-change EDI converter developed by itelligence.

The wide-ranging trade fair presentation will go even further, extending from implementation methodology especially tailored to SMEs to comprehensive industry solutions, from technology consulting including SAP NetWeaver, SAP Exchange Infrastructure (XI), portal and CRM technology as well as product lifecycle management and implementation on through to Outsourcing & Service offerings and to examples of Lotus Notes-SAP integration.

itelligence Press Release

SAP consultancy itelligence at the CeBIT 2006 from March 9 - 15, 2006

itelligence presents digital signatures in the SAP environment and a new solution for car dealerships and service companies

itelligence industry solutions

Examples of the innovative itelligence industry solutions for the classic and upper midsize market, based on mySAP All-in-One, will be featured prominently at the trade fair. The itelligence experts will present new advances for automobile dealers, the high-tech and electronic industries, the aviation and aerospace industries, machinery and plant manufacturers, the wood/furniture industry, metal and plastics processing, steel and other metals producers, the metal foundry industry, transportation services providers, service industries, retailers, processors, the chemicals and pharmaceuticals industry and consumer goods manufacturers.

Industry Info Days at the CeBIT

For the first time, itelligence will employ the successful Industry Info Days concept at its CeBIT trade fair stand in Hanover: itelligence customers will relate directly from their own practical experiences regarding implemented SAP solutions. Manufacturing will be the focal point on March 10; Jacob & Söhne, the European market leader for pipe systems, will be presenting. And on March 13, Heinrich Eibach GmbH will be sharing its experiences in regard to SAP implementation. On March 14, the central theme will be the state-of-the-art SAP technology. Thus, itelligence will be showing digital signatures in the SAP environment for the first time. With the BSI certified signing server utilized by itelligence, PDF invoices receive a legal signature.

Itelligence partners at the CeBIT stand in Hall 4, D 38

This year, four itelligence partners will be presenting solutions and services at the itelligence stand. itelligence and ACATEC Software GmbH will be exhibiting their joint development for CAD integration in SAP solutions, the WSW software specialist in the automotive field will present new solutions for the automotive industry, and WMD Vertrieb GmbH will exhibit innovations from the area of workflow management and document management / data archiving. IBM, a further partner, will present its latest developments in the area of IBM workplace forms with SAP integration, IBM DB2 & Content Manager, Lotus Notes/Domino.
