

itelligence: Start-up company for electric cars uses it.automotive supplier

E.Mobile Technologies selects SAP consultancy itelligence AG

Frankfurt, December 4, 2003 - E.Mobile Technologies GmbH, Einbeck, will rely on SAP's mySAP Business Suite and itelligence AG's it.automotive supplier to ensure efficient design of its business processes. itelligence AG's consultants will start to implement the enterprise software at the young mid-sized company in December 2003. Production roll-out is scheduled for March 2004. Established in 2003, E.Mobile Technologies GmbH is a German manufacturer of innovative patented electric vehicles for the growing European market of leisure, promotional and fun vehicles for short-distance mobility.

Jochen Hein, Managing Director of E.Mobile Technologies GmbH: "We were looking for an SAP consultancy with sound SAP expertise and proven experience in the SME segment and automotive industry. We have found this partner in itelligence."

E.Mobile Technologies GmbH's production and sales departments will use the Sales and Distribution (SD), Materials Management (MM), Quality Management (QM) and Production Planning (PP) modules. The commercial department of E.Mobile Technologies GmbH will initially work with SAP Finance (FI) and Asset Accounting (AM). The introduction of the Controlling (CO) module is planned for a later date.

E.Mobile Technologies and itelligence plan to roll out the ERP system as early as in March 2004. E.Mobile Technologies relies right from the start on itelligence's industry know-how, SAP's high technical performance and the investment protection provided by their systems. E.Mobile Technologies GmbH's SAP system will be operated cost-efficiently at itelligence's computer centre in Bautzen. The system will comprise an SAP DB database serving some 50 users on Intel/Linux.

Press release of itelligence AG

itelligence: Start-up company for electric cars uses it.automotive supplier

E.Mobile Technologies selects SAP consultancy itelligence AG

E.Mobile Technologies GmbH will use the scalable SAP architecture and its Internet technology right from the start. By introducing mySAP CRM with Internet Sales, CAD integration and communication with suppliers and dealers via EDI and the Internet in the following project phases in 2004, the mid-sized company will lay the foundations for efficient e-business processes that grow with its needs.

itelligence AG's it.automotive supplier will provide the necessary basis. This industry solution fully supports the entire logistics chain of automotive manufacturers and suppliers without any media breaks and ensures transparent processes. it.automotive supplier is one of the first solutions for the automotive industry certified by SAP for the mySAP Enterprise Release 4.7. This renewed certification by SAP confirms the industry solution's full compatibility with the new SAP technology and itelligence's proven industry expertise.
